

Data Committee

Minutes

Tuesday March 17, 2015

Present: Erin Zuzula, Ruth Ever, Al Schadel, Lois Levin, Cherry Sullivan

Group reviewed all the data we already have:

2013 PNAS (prevention needs assessment survey administered to 8th, 10th and 12th grades every 2 years); Youth listening sessions; Parent focus groups; Other parent surveys; Town Hall Meeting last June.

After reviewing all the data, we agreed that at this time it makes sense to see where there is overlapping information from the youth listening sessions (like a focus group), parent focus group data and the informal focus groups from the town hall meeting on underage drinking. Once we look at these and find common themes, this information can help inform the construction of the parent survey that the coalition wants to administer.

We discussed getting some kind of questions or survey into the city census next year if possible.

Since the Parent Work Group is creating the parent survey, this Data group wants to meet with the parent group, to be sure they have all the information needed.

Proposal to all meet on Tuesday March 31 at 6:45 (or 6:30 pm) to do this at 50 Payson.
